

## A New Year and a New President 2017 & the 45th President of the US

Smith Family Newsletter  
January 2017- Page 1

I am way late, I know!!!! I really don't know where the time went? I couldn't believe I didn't do the January Newsletter yet! So, here I am....Many of us spent a good deal of our time following the transition within the office of the Presidency! This whole process makes our country so unique and special. I chose a few pictures at key moments of the inaugural process. Good thing we have a big screen TV!

Following this, I chose some pictures of the other members of our family to entertain you plus a recent wildlife picture on the lake in back. During the month, much time was spent getting ready for our trip to the Western Caribbean, including medical appointments and activities within Lakeside. Our cruise to the Caribbean will be in the February Newsletter.

The picture above is Minnie's daily nap schedule with Gracie feeling forced to follow. Above this is a picture of our resident Great Blue Heron on the left side and about 10 feet to the right, our resident white Egret. It is unusual to find them so close together.
