

## Happy Father's Day!!!

Besides Father's Day being celebrated in June we also celebrated the first day of Summer on June 21st! Well we can now complain about the *heat*....instead of the *cold*, right? Just kidding! It has started out a bit on the warm side though! My favorite seasons are the Spring and the Fall, with moderate temperatures. For us here at Lakeside, we have begun enjoying our brand new outdoor pool. They did a beautiful job! Picture below. Bob & I were in it a few times already and were very impressed with how it turned out.

Lakeside is growing by leaps and bounds, with new houses coming in all the time. According to the roster, there are 402 homes occupied currently, not counting the new ones for sale. Not only is Lakeside growing, the whole area is booming. Coastal South Carolina is the second fastest growing area in the country with retired seniors being a large portion of that group. I guess I really picked a good one, didn't I?

Well, before I forget, we did celebrate Memorial Day at Lakeside last month. It didn't get in the Newsletter because of our British Isles Cruise pictures and summary. This event in the clubhouse really demonstrated the growth we are experiencing. I do not think I have ever seen it that full. Normally we would have been outside, but the weather was not conducive as the temperature was high along with the humidity. It wasn't that easy to find a couple of seats. Picture to the right.

Well, this was a rather quiet month, where Bob & I got caught up on house tasks, appointments, etc. We also attended another session of 'Quilts of Honor' ceremony held in the Lakeside Clubhouse. Bob received his *Quilt of Honor* last year. This years ceremony included veterans from surrounding area as well as Lakeside. Ray Maggio and Ken Van Orden, a couple of our friends from Lakeside, were included in this group. A special personal quilt was made for each veteran by local residents. Ray is a three times Purple Heart veteran. See picture with Ray, also to the right.

I have included a couple of samples of summer with the Crape Myrtle trees which are so beautiful!!

Crape Myrtle  
Trees...A  
Sign of Summer!!
