

I know....I know....I am late, here it is December!!! The weeks are flying by far too quickly! Well, we all know that the end of October was the celebration of Halloween and we had a very nice time at our Club House.

Prior to this, however, we were sooo happy to spend some time with our long time friends, John & Barbara. Our relationship with them started with a Goldwing motorcycle club back in New York and progressed to Recreational Vehicles, which for them was a Fifth Wheel. We have had many fun times together. They visited us early in October.

Beyond this, I thought I would throw in a couple of pictures of the Blue Grass production from up the street and Dr Falk's (our chiropractor) annual *Falktoberfest*. I have to tell you, besides enjoying the free lunch catered by *The Trestle*, I managed to win not one but three prizes that day!!! Could not believe it. I won a \$25.00 dollar gift certificate for *Jo Hibachi*. I also won a Free Oil Change and Tire Rotation, plus best of all , 2 tickets for *Scrooge The Musical at the Theatre of the Republic!* This is my favorite show at Christmas!!! I always look for the original Black & White version on TV during Christmas, which has become hard to find. It's a tradition. In the picture on the upper right, our neighbor, Doris is sitting next to Bob, with 2 of her dear friends from Texas across the table. In the pictures Below, Dr Falk is walking across the yard, and someone is in the process of getting a massage.

Above is a picture of some of our back yard entertainment! We have a small group of resident ducks, which quickly grow in the Fall and Winter. Fun to watch. The next picture is of my plants of choice, which drew the attention of butterflies and honey bees this year. That also goes under the title of Cat TV. The plants also tolerated the high heat, humidity of the summer weather. Hope you enjoyed my October newsletter.
